

MENA Transport Report 2017

In its 4th edition, the **MENA Transport Report (MTR)** provides a comprehensive and up-to-date overview of the (public) transport landscape in the Middle East & North Africa (MENA) region.

The MTR represents a **key reference document** for public transport professionals, industry leaders, academics and policymakers.

What does the MTR offer you?

The MENA Transport Report 2017 features **14 countries** and **28 cities** in the MENA region covering all modes of transport. The MTR summarizes national and urban public transport **stakeholders, strategies & policies**, ongoing **projects**, existing **services, operators & fares, modal shares** as well as **challenges** and innovative **solutions**.

What's new?
